

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2025-26 School Description and Mission Statement

The Central Academy of Arts and Technology (CAAT) is a tuition-free, public charter school located in downtown Bakersfield, serving Transitional Kindergarten through 9th grade with plans to expand through 12th grade. Founded in 2024, the school was established to provide families in Kern County with an alternative public education that integrates strong academic foundations with a focus on both the arts and technology. CAAT's mission emphasizes creativity, critical thinking, and innovation, fostering an engaging learning environment where students are encouraged to develop their individual talents and pursue excellence.

2025-26 School Description and Mission Statement

across disciplines. The school operates with credentialed teachers and open enrollment, welcoming students from across the county without attendance boundaries.

The instructional program at CAAT centers on a college preparatory curriculum enhanced by comprehensive arts and technology offerings. From the earliest grades, students engage in visual and performing arts, media arts, and technology-rich learning experiences designed to build digital literacy, creative problem-solving, and future-ready skills. Technology is integrated throughout classroom instruction to support personalized learning and active student engagement, and the school begins cultivating a college-going mindset from the start. As CAAT grows its grade levels, academic supports such as counseling, SAT preparation, and opportunities for advanced coursework are being introduced to ensure students are prepared for post-secondary education and success.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on full-time equivalent (FTE) status. One FTE equals one staff member working full-time; one FTE could also represent two staff members who each work 50 percent of full-time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

School facilities are clean, functional, and provide adequate space for instructional programs, student services, and administrative operations. Systems including electrical, plumbing, heating, ventilation, and fire safety equipment are maintained in working order, and classrooms, restrooms, and common areas are monitored regularly to ensure they remain safe and accessible.

The school conducts routine facility inspections and ongoing maintenance to address wear, safety concerns, and operational needs in a timely manner. Any identified deficiencies are prioritized and corrected as quickly as possible to minimize disruption to instruction. The condition of the school grounds, including walkways, entry points, and outdoor areas, is regularly reviewed to ensure proper supervision, secure access, and student safety during the school day.

School Facility Conditions and Planned Improvements

Overall, the condition of the Central Academy of Arts and Technology facility is rated as good, with no significant facility deficiencies that would impede educational services. The school remains committed to maintaining a safe, clean, and well-functioning learning environment that supports student achievement and complies with all applicable state facility standards.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Central Academy of Arts and Technology views parents as essential partners in their child's education and recognizes families as the first and most influential educators. The school's philosophy emphasizes collaboration, mutual respect, and shared responsibility for student academic, social-emotional, and character development. Parent engagement is intentionally embedded into school practices through home visits, regular communication, and quarterly parent-teacher meetings focused on goal setting and student progress. Parents are invited to provide ongoing feedback that informs personalized learning plans and school improvement efforts, and they are encouraged to participate in school events, workshops, and celebrations of student learning. Parents are also invited to participate in school committees such as ELAC, SSC, and LCAP. While family involvement is strongly valued and supported through structured opportunities such as community events and parent leadership initiatives, participation is not required as a condition of enrollment, ensuring equitable access for all families. Information on how parents can get involved in activities is shared through ParentSquare notifications, weekly family newsletters and month Parent Club meetings. Activities are coordinated by the Head of Schools who manages notifications and

promotion of the events for parent involvement.

2025-26 School Safety Plan

Central Academy of Arts and Technology maintains a Comprehensive School Safety Plan (CSSP) in compliance with California Education Code requirements to ensure a safe and orderly learning environment. The CSSP is reviewed and approved annually by the Board of Directors on or before March 2 and was most recently reviewed during the school's annual oversight visit and updated on September 30, 2025. The plan is shared with school staff during staff development prior to the first day of school, and includes appropriate student and staff input through appropriate representation. Key elements of the CSSP include emergency preparedness and response procedures, campus supervision and access control, behavioral expectations and discipline guidelines, child abuse reporting procedures, disaster and lockdown protocols, and coordination with local law enforcement and emergency response agencies.

Fiscal Year 2024-25 Types of Services Funded

CAAT provides a set of programs and services designed to support the academic, social-emotional, and personal growth of all students. Literacy instruction in grades TK–8 is anchored in the Success for All framework, which integrates reading instruction with embedded social-emotional learning to support both foundational skills and student well-being. Students in grades 1–8 participate in Genius Hour, a structured tutoring and skills block that gives students the opportunity to have deep practice, develop skills, and advance by applying learning through based projects. Individualized Learning Plans (ILPs) are developed and monitored using multiple data sources, including classroom assessments and diagnostic tools, to ensure that instruction and interventions are responsive to each student's needs.

The school extends learning beyond the traditional day through an afterschool program that offers academic support, enrichment, and opportunities for students to advance. A diverse range of electives in arts and technology provides students with meaningful access to creative and innovative learning experiences, while student interest clubs foster leadership, collaboration, and a sense of belonging. These programs are intentionally designed to connect academic learning with real-world applications and student passions.

Family partnership is a core component of the school's support system. The school prioritizes parent engagement through regular communication, family workshops, leadership opportunities, and collaborative events that strengthen the connection between home and school. Through these integrated programs and services, the school creates a supportive, engaging, and responsive learning environment that promotes academic achievement, social-emotional development, and long-term student success.

Professional Development

Central Academy of Arts and Technology implements a collaborative, data-driven professional development program focused on improving instructional quality and student outcomes. All professional development days are full days. Five full days prior to the start of the school year are dedicated to whole-staff professional development, with a focus on curriculum alignment, behavior management, PLC structures, and common planning to ensure readiness for the academic year. Each semester, intersession release days are provided by grade-level span for teachers to analyze student data, including i-Ready results, regroup students, adjust lesson plans, and update Individualized Learning Plans using the i-Ready planning platform. In addition, the first Friday of each month is reserved for a full day of professional learning, during which staff engage in data review, lesson planning, peer-led presentations, assessment design, and instructional calibration. CAAT also supports targeted professional growth by approving department-based and individual professional development requests, including trainings, conferences, collaborative sessions, and instructional site visits to other charter schools aligned to school goals and student performance data.

This table displays the number of school days dedicated to staff development and continuous improvement.
